

I support NJ's Do Not Call List. I still get calls from merchants I already do business with. When telemarketers would call and get the answering machine there would always be a long silence followed by a hang-up. I'm sure they get paid for the length and number of calls. I have twin girls who just turned 3. As you can imagine, our household is busy enough. We do not need any additional calls from people we do not know. We also do not know if the call is a valid opportunity or a scam. The Do Not Call List also helps us protect ourselves. Please do not change or overturn the ruling already enforced. Thank you.
